LOCKING FLOORS

HydroCore+

Why HydroCore+ Flooring

Easy Installation

Glue Free

Easy Installation

Fire Retardant

Stain Free

Scratch Resistant

Impact Resistant

Anti - Skid

Termite Proof

100% Non Toxic

Noise Reduction

Eco-Friendly

Product Applications

Bedroom

Living Room

Kitchen

Offices

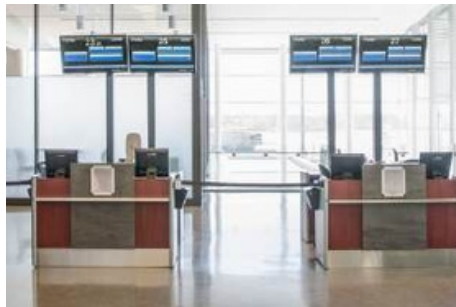

Shopping Center

Restaurant

Hospital

Airport

Bathroom

Hotel

floors fit for
HOMES

PREMIUM QUALITY FLOORS

HydroCore+ Floor Structure

Wear Layer

Wear layer serves as a shield for the plank. A wear layer, in essence, ensures that wear and tear do not have an impact on your floor.

UV Coating

It acts as an anti-pollution barrier and absorbs ultraviolet radiation effectively, improving wear resistance, delaying product ageing, and making cleaning easier.

HydroCore+ Sheet

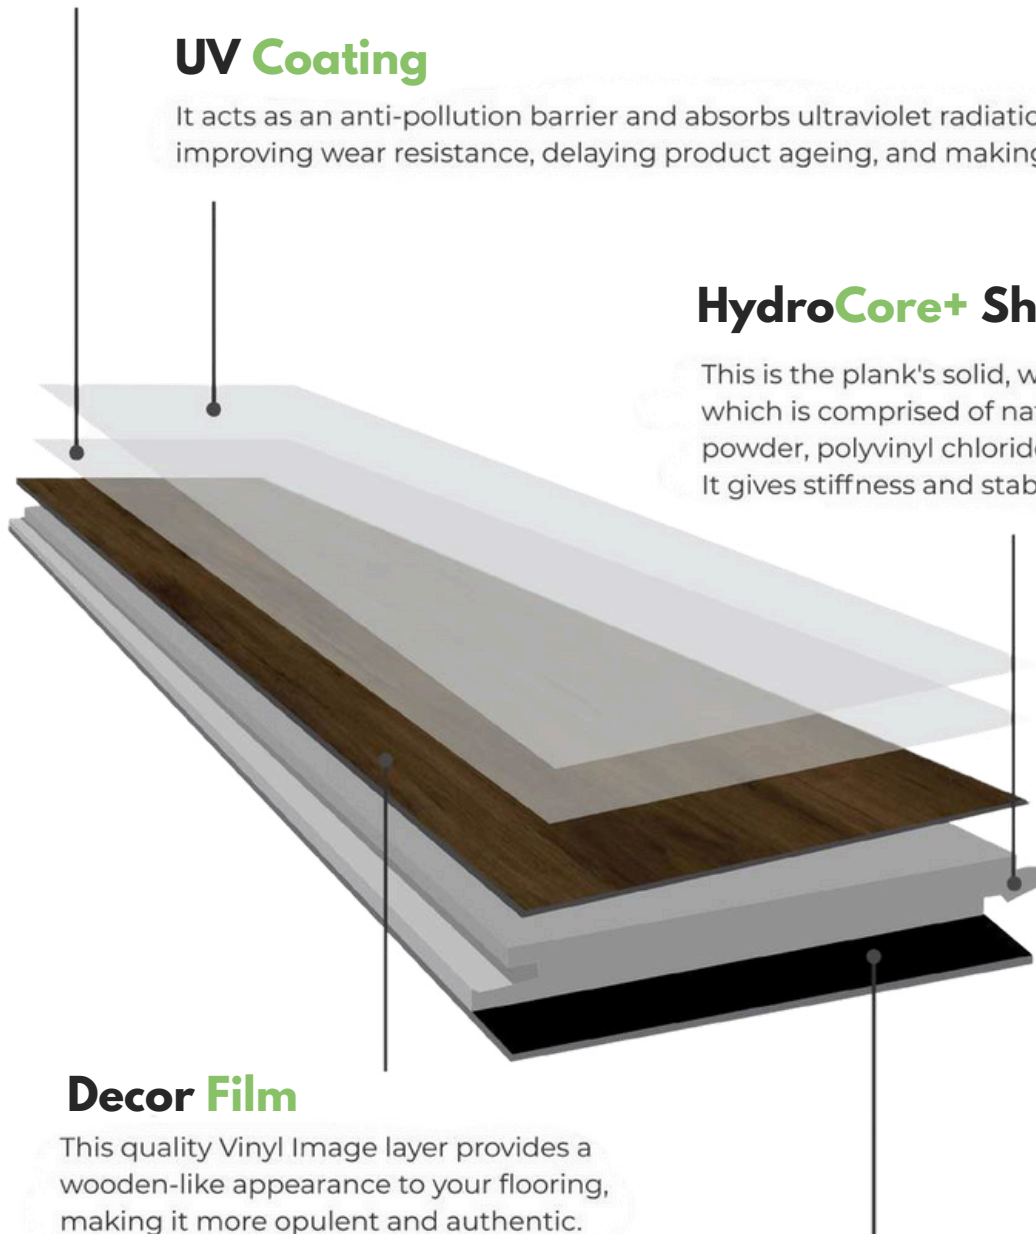

This is the plank's solid, waterproof core, which is comprised of natural limestone powder, polyvinyl chloride, and stabilisers. It gives stiffness and stability to the plank.

Decor Film

This quality Vinyl Image layer provides a wooden-like appearance to your flooring, making it more opulent and authentic.

Sound Reduction Underlayment

The underlayment absorbs sound, maintains warmth, and provides cushioning comfort. A denser layer provides better noise absorption and shock absorption.
