The Changing World Around Us.

Where Do We Get Our Inspiration for New Flooring Collections.

The search for new colour schemes is a long and creative process involving all of our senses.

The world around us has changed significantly in recent years and dwellings have suddenly become the centre of our lives: places to work, study and relax, playgrounds, hobby workshops and gyms. Never before have we spent as much time there as we do now. Domestic space has become universal and its equipment and furnishing have undergone an extreme endurance test. This results in change to our homes and therefore organisation of the space to adapt to our new lifestyle. At SWISSKRONO, we want to make all these changes easier with our floors - products that are safe, durable and easy to care for on a daily basis.

Flooring replacement is a true revolution for any home. The floor forms the basis of the entire interior and provides a starting point for the choice of climate and colour, which is why we pay so much attention to selecting new designs for our collections.

We talk to designers, follow global and local trends, search for inspiration in nature, in the landscape of Polish forests, but most of all, we examine how people want to live today. I do believe that the diversity of the PLATINIUM collection will be conducive to discovering your own aesthetics and will enable you to create an interior that suits your needs.

Marcin Luty, PhD

President of the Management Board of SWISSKRONO sp. z o.o.

El mundo que cambia alrededor de nosotros.

De dónde sacamos las inspiraciones para las nuevas colecciones de suelos.

La búsqueda de los modelos de colores nuevos es un proceso largo y creativo en que utilizamos todos los sentidos.

En los últimos años el mundo alrededor de nosotros ha cambiado significativamente, de la noche a la mañana nuestros suelos se convirtieron en el centro de nuestra vida: lugares de trabajo, aprendizaje, descanso, zonas de juegos, talleres de aficiones, salas de ejercicios. Nunca habíamos pasado en ellos tanto tiempo como ahora. El espacio doméstico se volvió universal, mientras que los utensilios y el mobiliario fijo instalado en él fue puesto a una prueba extrema de resistencia. Entonces introducimos cambios en nuestras casas y organizamos de nuevo el espacio, adaptándolo al nuevo estilo de vida.

Nosotros queremos que todos esos cambios sean más fáciles con nuestros suelos y que nuestro producto sea seguro, durable y fácil de cuidar a diario. El cambio de suelo es una auténtica revolución doméstica. El suelo constituye la base de todo el interior y es el punto de partida de la selección de la atmósfera y los colores. Por eso elegimos los modelos nuevos para nuestra colección con tanta atención.

Hablamos con los diseñadores, observamos las tendencias locales y globales, buscamos inspiraciones en la naturaleza, en el paisaje de los bosques polacos, pero sobre todo miramos cómo la gente de hoy quiere vivir. Creo que la diversidad de la colección PLATINIUM favorecerá el descubrimiento de la estética propia y permitirá la creación de unos interiores que respondan a sus necesidades.

Меняющийся мир вокруг нас.

Откуда мы черпаем вдохновение для новых коллекций полов.

Поиск новых цветовых решений - это длительный и творческий процесс, в ходе которого мы используем наши чувства.

За последние годы мир вокруг нас сильно изменился, квартиры в одночасье стали центром нашей жизни: местом для работы, учебы, отдыха, игровой площадкой, мастерской по интересам, тренажерным залом. Никогда раньше мы не проводили в них столько времени, сколько сейчас. Домашнее пространство стало универсальным, а техника и стационарное оснащение, установленное там, подвергаются экстремальным испытаниям на прочность. Поэтому мы вносим изменения в наши дома и преобразуем пространство, приспособляя его к новому стилю жизни. И нам хочется, чтобы все эти изменения проходили проще с нашими полами, а сам продукт был безопасным, долговечным и простым при ежедневном уходе. Замена пола в квартире - это одно из домашних потрясений. Пол составляет основу всего интерьера и является отправной точкой для выбора климата и цвета, поэтому мы так тщательно отбираем новые образцы для коллекции. Мы проводим дискуссии с дизайнерами, наблюдаем за мировыми и местными тенденциями, ищем вдохновение в природе, в пейзажах польских лесов, но, прежде всего, мы присматриваемся к тому, как люди хотят жить и живут сегодня. Я верю, что разнообразие коллекции PLATINIUM будет способствовать открытию собственной эстетики и позволит создать интерьер, отвечающий вашим потребностям.
